BEEF Helps Me Grow Healthy & Strong!

Design Your Own Photo Frame Border,
Then Paste or Tape Your Photo Here!

Design Your Own Photo Frame Instructions

Print the frame on cardstock and fold in half lengthwise to create a 5.5x8.5" card.

Have students design their own frame with colored pencils, crayons or markers. Perhaps their design could reflect some of the things they learned from your presentation or the Ag Expo as a whole.

Tell them when they get home to paste a photo in the center and share it with their families.
